Features:

• Get certified with a special glaucoma certification track and exam
• Make sure you get paid — have your staff take the ICD-10 coding courses
• Be prepared for health care reform with courses on pediatric vision care
• Prepare for all of the changes in 2014 with numerous cutting-edge courses for you and your staff
Give us a try FREE!

And help support the California Optometric Association!

- Vision West is the preferred optical buying group of the California Optometric Association (COA).
- To date Vision West has given the COA over $7 Million back in support!
- No membership fee and no minimum purchase or volume requirements
- Competitive discounts on the largest selection of optical, lab and business service vendors in the industry.
- Premium Customer Service and 24/7 online account access and Practice Management tools
- No hassle, no fee early credit service

**GIVE US A 3 MONTH TRIAL**
You have nothing to lose and everything to gain — no administrative fee charges for 3 months!
For more information and to join today, just call a Customer Service Specialist at 800.640.9485.

The California Optometric Association (COA) is proud to present Monterey Symposium 2013, an intimate conference ideal for learning. Set in beautiful Monterey, CA, this year’s conference is the place to discover new tools and techniques that will help you prepare for some big changes coming in 2014. The Monterey Symposium offers the best and most cutting-edge Continuing Education (CE) around. This year’s conference offers a combined 94 hours of a world class CE program, numerous networking opportunities and an exhibit hall filled with optometry’s latest products and services!

**Conference Highlights**

- **Get glaucoma certified** — COA’s Glaucoma Certification Track offers a 16-hour case management course with exam.
- **Make sure you get paid!** — The ICD-10 courses are perfect for both you and your staff! It will prepare your whole practice for the imminent coding changes.
- **Pediatric vision care** — Pediatric vision care courses will prepare you for upcoming health care changes.
- **Bring your staff** — Keep your staff up-to-date on the latest in optometry. Look online and in the brochure for the “people” icon, which indicates great courses for you to attend with your staff!
- **Prepare for board certification** — COA handpicked courses, which are marked in the brochure with a special “BC” icon, to help you succeed.

The Monterey Symposium also features a robust exhibit hall featuring the latest products and services designed to benefit your practice and patients!

**ACCESS CLASS HANDOUTS BEFORE YOU GO!**

Class handouts will be available online after August 14, 2013. Visit www.monteresymposium.com to download class handouts for OD and paraoptometric courses.

There will be no handouts distributed at the classes and no print stations onsite.

Thank you for supporting our efforts to “Go Green!”
Thank you to our 2013 sponsors!

As the largest state optometric association in the nation, COA expresses its highest gratitude to our Champion and Monterey Symposium sponsors for their generous support.

In addition to sponsorship, their industry-leading products and services make it possible for doctors to practice optometry at the highest possible level. Thank you for making optometry stronger, better and more visible! (For the most updated list of sponsors, visit www.montereysymposium.com.)

Exhibit Hall hours:
Friday, November 8, 2013 11:30 AM - 3:30 PM
Saturday, November 9, 2013 11:30 AM - 3:30 PM

For an up-to-date list of exhibitors and map of the 2013 Exhibit Hall, visit www.montereysymposium.com

Also, keep an eye out for a Monterey Symposium mobile application that will help you navigate the conference schedule, inform you about exhibitors, give you important alerts, hotel information and more!

Food For Thought Series

Monterey Symposium 2013 presents a series of morning sessions as well as a special “dinner & education” session on Friday hosted by industry leaders. Enjoy a hot morning breakfast or dinner while gaining an inside track on the newest services and products available and earn CE credit while you’re at it! Make sure you designate which session(s) you’d like to attend on your registration form as seating is limited (please, no children allowed). Please see the OD and Paraoptometric Program Grids for a schedule of sessions.

Melissa Barnett, OD, FAAO
FF3 Therapeutic Considerations for Management of Patients With Chronic Dry Eye and Patients With Elevated Intraocular Pressure
101 Contact Lenses for Baby Boomers — Contact Lenses for Presbyopia (O)
107 Scleral Contact Lenses — Indications and Complications (O)
108 Care for Specialty Contact Lenses (O)
111 Conquering the Steep Cornea — Contact Lenses in Keratoconus (O)
116 Help Your Doctor Troubleshoot Unhappy Contact Lens Wearers
204 Oh-No, Contact Lens Casualties (TPA)

Jay Binkowitz
102 Measuring For Success (PM)
103 Review-Based Staff Compensation Strategies and Benchmarks (PM)

Michael Chaglasian, OD, FAAO
FF3 Therapeutic Considerations for Management of Patients With Chronic Dry Eye and Patients With Elevated Intraocular Pressure
200 Visual Fields and Treatment Strategies in Glaucoma (TPG)
218 Gonioscopy and Slit Lamp Exam for the Glaucoma Suspect (TPG)
Continuing TPA-certified education requirements for California optometrists

California optometrists must take 35 hours out of a total of 50 hours of continuing education every two years in any combination of the following areas: glaucoma, ocular infection, ocular inflammation, topical steroids, systemic medication, and pain medications toward fulfillment of their license renewal. Continuing optometric education programs that meet the required standards of the California State Board of Optometry include offerings from the California Optometric Association, a state affiliate of the American Optometric Association.

OD course designations

To help you identify topic areas, Monterey Symposium educational sessions have been designated as:

TPA: Therapeutic Pharmaceutical Agent
TPG: TPA with approval to treat Glaucoma
TLG: TPA with approval to perform Lacrimal Irrigation and Dilation and treat Glaucoma
O: Other
PM: Practice Management (No credit in CA)

Credit for course attendance

To comply with the California State Board of Optometry continuing education requirements, attendees must remain in the session for the duration of the course. If an attendee leaves early or arrives more than 10 minutes late, no CE credit will be given. Note: Partial credits for CE courses are NOT available. Transcripts will be mailed to you 6-8 weeks after the conference.

Please Note:

Licensees who are glaucoma certified pursuant to CCR 1571 shall be required to complete 10 hours of glaucoma specific continuing optometric education every license renewal period. These 10 hours shall be a part of the required 35 hours on the diagnosis, treatment and management of ocular disease (CCR Section 1571 (b)).

<table>
<thead>
<tr>
<th>TIME</th>
<th>OD SESSIONS</th>
</tr>
</thead>
</table>
| 6:45 AM – 7:45 AM | FF1 - Food For Thought: Introducing DAILIES TOTAL1® Water Gradient Contact Lenses (Sponsored by Alcon)  
Hauke Marsden, OD, MS, FAAO  
Despite tremendous technological advances, all-day comfort remains elusive for many SCL patients. Soft lenses have been limited by use of a single homogeneous material with one water content throughout the lens — until now! Introducing DAILIES TOTAL1® water gradient contact lenses, the first and only water gradient contact lens, featuring an increase from 33% to over 80% water content from core to surface, approaching 100% at the outer surface. |
| 8:00 AM – 11:40 AM | FF2 - Food For Thought: Changing Technologies and Digital Communications for the Eye Care Market  
(Sponsored by CooperVision)  
Shaun Schooley, VP Digital Strategies – CooperVision, Inc.  
Review of current digital trends and how they impact revenue generation for ECPs. We’ll review reputation management, on line business tools from Google, Yahoo, Yelp and others and how they can be harnessed to increase patient engagement and office revenue. Discussion on how reviews are evolving and new players in online reputation, Facebook’s changes to search, Apple vs. Google, and the increasing importance of mobile. |
| 8:00 AM – 4:40 PM  
(Option III) | GLC2 - Glaucoma (TPG) — clinical case presentations  
COA has partnered with SCCO to offer a 16-hour case management course with exam. |
| 8:00 AM – 11:40 AM  
(Option I or II) | GT3 - Glaucoma (TPG) — clinical case presentations (TPG)  
Judy Tong, OD, FAAO & Mark Sawamura, OD  
Clinical case presentations without exam — approved for license renewal. |
| 8:00 AM – 8:50 AM | 100 - Glaucoma Pharmacology; Prescribing for the Patient (TPG)  
Joseph Sowka OD, FAAO  
This course reviews therapeutic management of glaucoma with an emphasis on medication usage and drug updates. We will cover indications, contraindications, and clinical pearls for each class of glaucoma medication. (1hr) |
| 9:00 AM – 9:50 AM | 101 - Contact Lenses for Baby Boomers — Contact Lenses for Presbyopia (O)  
Melissa Barnett, OD, FAAO  
Learn the ins and outs of contact lenses in this session. This interesting and interactive presentation will use patient case studies to review a variety of contact lenses for presbyopia including soft toric, gas permeable, scleral and hybrid lenses. Attendees will discuss many of the possible corrections options. At the end of this course you’ll feel ready to tackle the contact issues of Baby Boomers. (1hr) |
| 9:00 AM – 11:40 AM | 102 - Measuring For Success (PM)  
COPE # 32174-PM  
Jay Binkowitz  
How do you know if what you’re doing is working for your business? In this course, speaker Jay Binkowitz strives to help you understand what types of information you need to collect in order to make better decisions and to grow our businesses. This course has been designed to review critical points of information and how to use them to support success. (1hr) |
| 10:00 AM – 11:40 AM | 103 - Review-Based Staff Compensation Strategies and Benchmarks (PM)  
Jay Binkowitz  
Ever wonder if those employee bonuses are really working to increase productivity? This course presents new ways to evaluate and reward performance. These methods are based on specific and measurable elements that support increased productivity and profitability by strengthening job knowledge and accountability. (1hr) |
| 10:00 AM – 11:40 AM | 104 - Multiple Sclerosis: Some Basics Worth Understanding (TPA)  
COPE # 37475-SD  
A. Paul Chous, MA, OD, FAAO  
Optometrists are often the first to “diagnose” Multiple Sclerosis (MS) in patients. It is important to be familiar with some of the presenting signs and symptoms as related to eyecare and appropriate steps to take. In this course, we will also spend time on an overview of MS treatments. (1hr) |
| 10:00 AM – 11:40 AM | 105 - Prevention of Medical Errors (O)  
COPE # 35455-EJ  
Joseph Sowka OD, FAAO  
Protect your practice! In this course, speaker Joseph Sowka, OD, FAAO, will teach you the latest methods on how to reduce the risk of medical errors to promote patient safety. When you walk away from this session, you will have the tools to limit the risk of malpractice and the ability to create a safer environment for your patients! (2hrs) |
| 10:00 AM – 11:40 AM | 106 - Ten Things Every Doctor of Optometry Needs to Know About Diabetes (TPA)  
COPE # 31871-SD  
A. Paul Chous, MA, OD, FAAO  
How much do you know about diabetes? Learn how to provide top-notch care for patients with diabetes in this course! Speaker A. Paul Chous, MA, OD, FAAO, presents the top ten most important concepts and strategies for optometrists looking to improve care for diabetic patients. (2hrs) |
| 10:00 AM – 11:40 AM | 107 - Scleral Contact Lenses — Indications and Complications (O)  
Melissa Barnett, OD, FAAO  
Be prepared for scleral contact lens cases! In this course you’ll learn about scleral contact lens indications, fitting and complications. Speaker Melissa Barnett, OD, FAAO, will use cases to demonstrate different indications and complications of scleral lenses. She will also cover the latest in scleral lens handling techniques and solutions. (2hrs) |

Jay Binkowitz  
Vision care plans are confusing and frustrating. This course will help you understand how plans work and how to maximize profitability. Profiting with managed care is not just about knowing the plans. It is about the combination of products, pricing, knowledge and how we present it to our patients. (1 hr) |
|              | 114 - Is it Real? Is it Their Eyes? Evaluating Children with Headaches (TPA)  
Rachel A. “Stacey” Coulter, OD, MSEd  
FAAO, FCOVD  
Prepare your practice for the wave of pediatric patients you'll have in 2014 with this course. It will review diagnosis and management of headaches in the pediatric population. Specific topics include sinus headaches, tension headaches, pediatric migraine and headaches linked to pathologies. Speaker, Rachel A. “Stacey” Coulter, OD, delves into implications for day-to-day practice. (1 hr) |
|              | 115 - Diabetes Disasters (TPA)  
COPE # 37506-SD  
A. Paul Chous, MA, OD, FAAO  
Don't let your practice turn into a disaster zone! Take this course, which will review some common and not so common disasters pertaining to the care of patients with diabetes and the optometrist's role in preventing these dangerous situations. (1 hr) |
| 7:00 PM – 8:00 PM | DE1 - Dinner & Education: Successful Strategies for Practice Transitions: Buying, Selling and Partnering  
(Sponsored by Practice Concepts & Essilor Laboratories)  
Scott Daniels, Practice Concepts  
Discusses the various factors buyers and sellers should consider for practice ownership including; values, due diligence, pitfalls to avoid and tax saving strategies for both parties.  
**Course objectives:**  
1. Evaluate the various pros and cons of practice purchasing from a buyer’s perspective and help buyers make their own informed decision on whether ownership is right for you;  
2. Overview of Practice values;  
3. Review Seller considerations and how to be prepare for a sale;  
4. Discuss how both buyers and sellers can better prepare themselves;  
5. Review partnership sales for buyers and sellers and other considerations that should be addressed;  
6. Tax considerations and how both sides can save money. |

| 202 - Tales From the Trenches: Posterior Segment (TPA) | Mark Dunbar, OD, FAAO  
Get ready to see some interesting cases from more than two decades in an ophthalmology academic referral center. Speaker, Mark Dunbar, OD, FAAO, will present the course in a grand rounds format. Cases will be challenging, yet clinically common. The course is designed to stimulate differential diagnosis, utilize diagnostic technology and discuss various treatment strategies. (2hrs) |
| 203 - Thought Provoking Cases in Anterior Segment (TPA) | COPE # 37841-AS  
Mika Moy, OD, FAAO  
Pharmaceutical treatment of anterior segment disease is an important part of optometric practice. We discuss anterior segment entities that are often misdiagnosed or not optimally treated on initial presentation and give pearls on how to correctly diagnose and manage these conditions. |
| 204 - Oh-No, Contact Lens Casualties (TPA) | COPE # 36191-PD  
Melissa Barnett, OD, FAAO  
Don’t have contact lens casualties — take this course! This interactive course will review a variety of contact lens complications. Different patient cases will be utilized to learn about contact lens complications. Speaker, Melissa Barnett, OD, FAAO, will discuss soft, gas permeable, scleral and hybrid lenses. (1hrs) |

| **10:00 AM – 11:40 AM** | **OD SESSIONS** |
| 205 - Understanding and Interpreting OCT (TPA) | COPE # 36191-PD  
Mark Dunbar, OD, FAAO  
Optical Coherence Tomography (OCT) has revolutionized our understanding of macular disease and has emerged as an important tool in the management of glaucoma. This lecture will provide a nuts and bolts approach using cases to understanding and interpret the OCT as well as provide an update on the latest with this indispensable imaging technology. (2hrs) |
| 206 - Patient Communication and Sales Strategy for Today’s Environment (PM) | Jay Binkowitz  
Do you have a sales strategy that works? In this course, speaker Jay Binkowitz will show you how to communicate the value of what you’re offering. From the exam room to the dispensary, communicating the value of products and services is critical to practice survival. In this session, Binkowitz will discuss enhancing personal relationships, the ability to deliver superior service and products and positioning practices for awareness and exposure. (2hrs) |
| 207 - Neuro-Ocular Grand Rounds (TPA) | COPE # 34647-NO  
Anthony Litwak, OD, FAAO  
Discover the latest in diagnosing patients that present with a swelling optic nerve head with this course! In this session, speaker Anthony Litwak, OD, FAAO, will review the clinical features in the differential diagnosis of a patient who presents with swelling of the optic nerve head. You will review case studies that include AION, optic neuritis, papilledema, pseudotumor cerebri and infiltrative optic neuropathies. Dr. Litwak will emphasize management and treatment protocols in this course. |
| 208 - Horses or Zebras — You Make the Call in Diagnosing Pediatric Cases (TPA) | COPE # 33846-PO  
Rachel A. “Stacey” Coulter, OD, MSEd FAAO, FCVD  
Differentiating common conditions from more serious eye disease can be particularly challenging when the patient is a child. This course will review a series of challenging cases and discuss differential diagnoses and patient management considerations (2hrs) |

| **11:30 AM – 3:30 PM** | **OD SESSIONS** |
| 209 - A Forensic Study To Assist You In Understanding Your Profitability (PM) | COPE # 34870-PM  
Jay Binkowitz  
Is your practice as profitable as it can be? In this course, Jay Binkowitz, helps you understand how it is essential to understand the costs with both the professional and dispensary businesses to create profit. This course outlines a detailed methodology in identifying the unique operational costs and profitability of each. (1 hr) |
| 210 - Optometrist’s Guide to Corneal Collagen Cross-linking (O) | COPE # 33386-PO  
William Tullo, OD, FAAO  
You don’t want to miss the “Optometrist’s Guide to Corneal Collagen Cross-linking.” This course will provide the practicing optometrist the information necessary to understand and perform various forms of corneal collagen cross-linking. (1 hr) |
| 211 - Uveitis Diagnosis and Therapy Made Simple (TPA) | Anthony Litwak, OD, FAAO  
Learn about the simplest ways to diagnose and treat uveitis in this course! In this session, speaker Anthony Litwak, OD, FAAO, will discuss the diagnosis and management of uveitis. He will review the clinical signs and symptoms of the disease, as well as treatment options, including those refractory to standard therapy. (1 hr) |

### Saturday, November 9, 2013 (continued)

<table>
<thead>
<tr>
<th>TIME</th>
<th>OD SESSIONS</th>
</tr>
</thead>
</table>
| 3:00 PM – 4:40 PM | **212 - Feed Your Retina: Nutrition and Retinal Health (TPA)**<br>COPE # 35584-PS  
A. Paul Chous, MA, OD, FAAO  
Feed your mind with this course! It will touch several areas where nutrition affects retinal health. Speaker, A. Paul Chous, MA, OD, FAAO, places special emphasis on AMD and diabetes in this session. When you leave this course, you’ll have practical guidelines, which will make the presented material immediately implementable in practice. (2 hrs)  
**213 - Applied Pain Management in Primary Eye Care (TPA)**<br>COPE # 31812-PH  
Mika Moy, OD, FAAO  
Pain management is an integral part of emergency eye care yet can often be overlooked. This lecture covers treatment options from placebo to scheduled medicines, and rapidly evolving prescribing guidelines in OTC and Rx drugs. Case examples of painful ocular conditions will be covered in a grand rounds format with pain management options discussed. (2 hrs) |
| 4:00 PM – 4:50 PM | **214 - Landmark Studies from NEI The Impact on Disease Management (TPA)**  
Mark Dunbar, OD, FAAO  
Find out the latest about landmark clinical studies in this course. Studies from the National Eye Institute (NEI) often help dictate the standard of care for the management of many of the common ocular disease conditions that are seen in ophthalmic practices. Speaker, Mark Dunbar, OD, FAAO, and attendees will discuss the management and treatment of retinal vascular disease, glaucoma, macular degeneration among others. He will present the latest updates from these landmark studies. (1 hr)  
**215 - Implement the Right Warranty, Achieve Outstanding Customer Service and Drive Sales (PM)**  
Jay Binkowitz  
Do you offer a guarantee, a warranty or both? In order to support outstanding service & drive sales, you need both. People make emotional decisions based on warm fuzzy feelings that support sales. For people to feel comfortable about the value they are receiving we must communicate our messages consistently. During this course we will look at several different philosophies to accomplish this along with how to leverage it within our marketing as this all comes full circle to become part of your culture. (1 hr)  
**216 - Refractive Surgery Complications and How To Deal with Them (TPA)**  
COPE # 30298-RS  
William Tullo, OD, FAAO  
Are you up on the latest in refractive surgery? In this course, you’ll learn the most common complications of corneal and intra-ocular refractive surgery. Speaker, William Tullo, OD, FAAO, will offer diagnostic clinical pearls for each complication and will highlight multiple updated treatment modalities for each complication. (1 hr) |
| 4:00 PM – 5:40 PM | **217 - My Favorite Cases (TPA)**<br>COPE # 33709-SD  
Anthony Litwak, OD, FAAO  
How about a course that encourages audience participation? In this session, speaker Anthony Litwak, OD, FAAO, presents a variety of cases in anterior segment, retina, glaucoma, uveitis, and neuro-ocular disease. He addresses the history, clinical findings, auxiliary testing, diagnosis and treatment plans for each case, all-the-while encouraging audience participation for differential diagnosis and treatment options. (2 hrs)  
**218 - Gonioscopy and Slit Lamp Exam for the Glaucoma Suspect (TPG)**<br>COPE # 36672-GL  
Michael Chaglasian, OD, FAAO  
Are you prepared for screening every glaucoma patient? In this course, speaker Michael Chaglasian, OD, FAAO teaches you why Gonioscopy and slit lamp exam are such critical procedures for all patients who are suspected of having glaucoma. This course will review the indications and outline a step-by-step approach for each. Dr. Chaglasian will use slide photographs and video to illustrate the techniques. (1 hr)  
**219 - Ocular Melanoma: Leave It In or Take It Out (TPA)**<br>Mark Dunbar, OD, FAAO  
This course offers a discussion of one of the most controversial topics in the history of ophthalmology. In this session, speaker Mark Dunbar, OD, FAAO provides insight in the clinical work-up, diagnosis and management of ocular melanomas. This session includes a discussion surrounding the controversy of enucleation and the latest information from the collaborative ocular melanoma study. (1 hr) |
| 5:00 PM – 5:50 PM | **ICD10S**<br>Speaker & Course TBD  
(1 hrs)

### TIME

<table>
<thead>
<tr>
<th>TIME</th>
<th>OD SESSIONS</th>
</tr>
</thead>
</table>
| 8:00 AM – 9:40 AM | 300 - Medical Management of Glaucoma (TPG)  
Michael Chaglasian, OD, FAAO  
Dive into glaucoma management in this course! In this session, speaker Michael Chaglasian, OD, FAAO, provides a discussion in the diagnosis and treatment of glaucoma with an examination of current glaucoma therapies available. (2hrs) |
|              | 301 - Ride the Wave of Technological Innovations in Eyecare (TPA)  
David Geffen, OD, FAAO  
Description coming (2hrs) |
|              | 302 - Tri-Level Vision Rehabilitation (O)  
Bennett McAllister, OD, FAAO  
This course presents a paradigm for the primary care doctor of optometry to implement low vision rehabilitation into their practice in a staged approach as appropriate. (2hrs) |
|              | 303 - Femtosecond Technology in Modern Eye Care (O)  
COPE # 31917-RS  
William Tullo, OD, FAAO  
Check out this cutting-edge course on femtosecond technology! This session will provide you the information necessary to understand the role of femtosecond technology in your practice. You will learn the current benefits of this technology in refractive, cataract and corneal replacement surgery. Speaker William Tullo, OD, FAAO, will discuss the future uses of this technology in the correction of presbyopia and other ocular conditions. (2hrs) |
| 10:00 AM – 11:40 AM | 304 - Assessing the Glaucomatous Optic Nerve (TPG)  
Michael Chaglasian, OD, FAAO  
Explore the developing standards for assessing the glaucomatous optic nerve in this course. Michael Chaglasian, OD, FAAO, will unfold developing standards and the use of Optical Coherence Tomography (OCT) for assessing the glaucomatous optic nerve. (2hrs) |
|              | 305 - Getting to Acceptance-Low Vision is Not (Just) About Optics (O)  
Bennett McAllister, OD, FAAO  
Help your low vision patients adjust by taking this course! In this course, speaker Bennett McAllister, OD, FAAO, investigates the psycho-social aspects of vision loss that impact our low vision patients and how doctors can intervene to get their partially sighted patients using their low vision devices successfully. |
| 12:00 PM – 12:50 PM | 306 - Co-management of Cataract Surgery (TPA)  
William Tullo, OD, FAAO  
Learn about the latest in cataract surgery with this course! In this session, speaker William Tullo, OD, FAAO, will delve into the diagnosis and pre-operative testing of patients with vision loss due to crystalline lenses opacification. He will discuss the IOL selection, premium technology selection and post-operative care clinical pearls and standard procedures. |
|              | 307 - Pearls, Trick Questions and Head Scratchers: Cases in Neuro-Optometry (TPA)  
COPE # 35860-NO  
Mika Moy, OD, FAAO  
Neuro-optometric cases can pose diagnostic challenges. Optometrists are key players in the health care team and must make appropriate decisions around resource management, referral and utilization of neuro-imaging technology. The following cases provide the clinician with useful tools to aid the care of neuro-optometric patients. |

### Paraoptometric Program Information

**Paraoptometric/staff certification continuing education information**

The Monterey Symposium 2013 paraoptometric continuing education program has been submitted to ABO (American Board of Opticianry)/NCLE (National Contact Lens Examiners) and the AOA Commission of Paraoptometric Certification (CPC). Some approvals were not available at press time. **Do not assume that courses you register for are approved.** COA is not responsible for courses that are not approved by ABO/NCLE or CPC. If you are attending a course that is ABO, NCLE or AOA approved, you will receive an ABO, NCLE, or CPC CE slip for that course at the end of the class. **You will need to complete the appropriate form and submit it to ABO/NCLE or the CPC in order to receive credit toward ABO/NCLE or AOA Paraoptometric re-certification.** For an updated listing of approved ABO/NCLE and AOA Paraoptometric certification courses, please visit www.montereysymposium.com.
<table>
<thead>
<tr>
<th>TIME</th>
<th>PARAOPTOMETRIC SESSIONS</th>
</tr>
</thead>
</table>
| 6:45 AM – 7:45 AM    | FF1 - Food For Thought: Introducing DAILIES TOTAL1® Water Gradient Contact Lenses (Sponsored by Alcon)  
Harue Marsden, OD, MS, FAAO  
Despite tremendous technological advances, all-day comfort remains elusive for many SCL patients. Soft lenses have been limited by use of a single homogeneous material with one water content throughout the lens — until now! Introducing DAILIES TOTAL1® water gradient contact lenses, the first and only water gradient contact lens, featuring an increase from 33% to over 80% water content from core to surface, approaching 100% at the outer surface.  
| FF2 - Food For Thought: Changing Technologies and Digital Communications for the Eye Care Market (Sponsored by CooperVision)  
Shaun Schooley, VP Digital Strategies – CooperVision, Inc.  
Review of current digital trends and how they impact revenue generation for ECPs. We’ll review reputation management, on line business tools from Google, Yahoo, Yelp and others and how they can be harnessed to increase patient engagement and office revenue. Discussion on how reviews are evolving and new players in online reputation, Facebook’s changes to search, Apple vs. Google, and the increasing importance of mobile. |
| 3:00 PM – 3:50 PM    | ICD-10 -  
Speaker & Course information TBD (1hr)  
| 108 - Care for Specialty Contact Lenses  
Melissa Barnett, OD, FAAO  
Are you ready to provide top-notch patient care? Even for the ones with specialty contact lenses? This course is geared towards paraoptometrics and will be a comprehensive overview of care for specialty contact lenses including scleral and hybrid lenses. Speaker, Melissa Barnett, OD, FAAO, will review contact lens solutions and insertion as well as removal techniques. |
| 3:00 PM – 4:40 PM    | 109 - Is Your Practice Ready to Care for the Patient with Autism Spectrum Disorder?  
Rachel A. “Stacey” Coulter, OD, MSEd, FAAO, FCOVD  
Are you prepared for patients with Autism Spectrum Disorder (ASD)? Autism Spectrum Disorder occurs in 1 out of 88 children. These patients’ vision needs are often unmet. This course provides strategies and research-based data to provide quality vision care to patients with ASD. Tips on how to prepare your practice and your staff are also presented. (2 hrs) |
| 4:00 PM – 4:50 PM    | 110 - The Mathematics of Board Management and Collection Driven Merchandising  
Jay Binkowitz  
Learn how to create your board management philosophy in this course! Buying the right products and creating successful assortments has become more challenging in today’s environment of shifting consumer tastes, increasing price sensitivity and growing shopper diversity. This course explains a detailed methodology to setting up a board management philosophy based on business principles and a clear look at how to present products. (1 hr) |
| 5:00 PM – 5:50 PM    | 113 - Profiting with Vision Care Plans  
Jay Binkowitz  
Vision care plans are confusing and frustrating. This course will help you understand how plans work and how to maximize profitability. Profiting with managed care is not just about knowing the plans. It is about the combination of products, pricing, knowledge and how we present it to our patients. (1 hr)  
| 115 - Diabetes Disasters  
A. Paul Chous, MA, OD, FAAO  
Don’t let your practice turn into a disaster zone! Take this course, which will review some common and not so common disasters pertaining to the care of patients with diabetes and the optometrist’s role in preventing these dangerous situations. (1 hr) |
| 7:00 PM – 8:00 PM    | DE1 - Dinner & Education: Successful Strategies for Practice Transitions: Buying, Selling and Partnering (Sponsored by Practice Concepts & Essilor Laboratories)  
Scott Daniels, Practice Concepts  
Discusses the various factors buyers and sellers should consider for practice ownership including; values, due diligence, pitfalls to avoid and tax saving strategies for both parties.  
**Course objectives:** (1) Evaluate the various pros and cons of practice purchasing from a buyer’s perspective and help buyers make their own informed decision on whether ownership is right for you; (2) Overview of Practice values; (3) Review Seller considerations and how to prepare for a sale; (4) Discuss how both buyers and sellers can better prepare themselves; (5) Review partnership sales for buyers and sellers and other considerations that should be addressed; (6) Tax considerations and how both sides can save money.

### Saturday, November 9, 2013

<table>
<thead>
<tr>
<th>TIME</th>
<th>PARAOPTOMETRIC SESSIONS</th>
</tr>
</thead>
</table>
| **6:45 AM – 7:45 AM** | FF3 - Food For Thought: Therapeutic Considerations for Management of Patients With Chronic Dry Eye and Patients With Elevated Intraocular Pressure *(Sponsored by Allergan)*  
Melissa Barnett, OD, FAAO & Mike Chaglasian, OD, FAAO  
Don’t miss this Allergan-sponsored event featuring Melissa Barnett, OD, FAAO, and Mike Chaglasian, OD, FAAO. These leading experts in the field of ocular disease will guide you through Allergan Eye Care therapeutic options for patients with chronic dry eye and elevated intraocular pressure. |
| **8:00 AM – 8:50 AM** | 220 - Dispensing Eyewear To Computer Users  
ABO Approved — Technical/Experienced  
Bradley Main, FNAO  
Think you know the best way to handle dispensing eye wear to heavy computer users? Learn more in this course! When you’re done with this session, you should be able to: identify symptoms of computer vision syndrome (eyesight), describe the deficits in productivity associated with poor visual performance and the need for improvements (efficiency), explain the best arrangement or setting for physical and visual comfort (ergonomics), and explain how the patient can benefit from technical improvements in specialized lens designs (eyewear). *(1hr)* |
|                    | 221 - How to Manage the Difficult Patient  
ABO Approved — General Knowledge/Experienced  
Valerie Manso, BSc, ABOC, FNAO  
Have you ever had some difficult patients? There are many techniques for managing them. These techniques all begin with: Always be in control. At the conclusion of this program you should be able to 1) review techniques of handling difficult patients and situations, 2) understand the process and the major steps in understanding and solving patient problems and 3) learn a conflict management process to satisfy patient complaints and resolve problems. *(1hr)* |
| **8:00 AM – 9:40 AM** | 222 - Diabetes: What We All Need to Know  
ABO/NCLE Approved — General Knowledge/Basic  
A. Paul Chous, MA, OD, FAAO  
This course considers the diabetes epidemic, including definitions, diagnosis, the most common ocular complications, how to identify and respond to in-office hypoglycemia, and the para-optometrist’s vital role in patient education. Presented by an optometrist specializing in diabetes eye care who has also had type 1 diabetes himself for 45 years, you will gain a truly inside look into the condition. *(2 hrs)* |
| **9:00 AM – 9:50 AM** | 223 - Match Making: Your Patient and the Right Lens  
ABO Approved — General Knowledge/Basic  
Bradley Main, FNAO  
Learn how to make a match that will last in this course! When you’ve completed this session, you will be able to recognize and resolve the benefits of matching the appropriate lenses with patient prescription needs, lifestyle requirements, occupational needs and cosmetic wants from a detailed presentation of the latest lens technology. *(1hr)* |
| **10:00 AM – 11:40 AM** | 206 - Patient Communication and Sales Strategy for Today’s Environment  
Jay Binkowitz  
Do you have a sales strategy that works? In this course, speaker Jay Binkowitz will show you how to communicate the value of what you’re offering. From the exam room to the dispensary, communicating the value of products and services is critical to practice survival. In this session, Binkowitz will discuss enhancing personal relationships, the ability to deliver superior service and products, and positioning practices for awareness and exposure. *(2hrs)* |
|                    | 224 - Demonstrating a Positive Attitude to Customers/Patients  
ABO Approved — General Knowledge/Basic  
Valerie Manso, BSc, ABOC, FNAO  
Learn how your attitude can affect your patients in this course! Your responses to customers/patients are often shaped by your own self-esteem. Demonstrating a positive attitude to customers/patients begins by adopting a positive attitude toward oneself. This seminar gives practical examples on how to adopt a positive attitude and how to deal with conflict in an assertive manner. At the conclusion of this session the participants should be able to 1) distinguish between assertive, aggressive and submissive behavior, 2) express their point of view without offending others, 3) practice the techniques to improve assertiveness, 4) demonstrate a positive attitude toward customers/patients, 5) deal with conflict in a positive manner and 6) discuss policies to ensure a positive business climate. *(2hrs)* |
|                    | 225 - Refractive Surgery FAQs. Help Your Doctor with Refractive Surgery Patient Education  
William Tullo, OD, FAAO  
Diagnosis and pre-operative testing of patients with vision loss due to crystalline lenses opacification.  
In this course we’ll discuss IOL selection, premium technology selection and post-operative care clinical pearls and standard procedures. *(2hrs)* |
## Paraoptometric Program

**Saturday, November 9, 2013 (continued)**

<table>
<thead>
<tr>
<th>TIME</th>
<th>PARAOPTOMETRIC SESSIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>TIME</strong></td>
<td><strong>Exhibit Hall Hours</strong></td>
</tr>
</tbody>
</table>
| 11:30 AM – 3:30 PM | 209 - A Forensic Study To Assist You In Understanding Your Profitability  
ABO Approved — General Knowledge/Experienced  
Jay Binkowitz  
To understand how to create profit it is essential to understand the costs with both the professional and dispensary businesses. This course outlines a detailed methodology in identifying the unique operational costs and profitability of each. (1 hr) |
| 3:00 PM – 3:50 PM | 226 - Digital Dispensing 101  
ABO Approved — General Knowledge/Experienced  
Bradley Main, FNAO  
Do you know Free Form? When you’re finished with this course, you should be able to 1) understand the technical aspects of Free Form technology, 2) understand the visual benefits of Free Form lenses over traditional surfacing methods, 3) implement proven presentation techniques to improve patient education during the sales process and 4) learn... how Free Form lenses can have a significant, positive impact on patient satisfaction and the bottom line. (1 hr) |
| 3:00 PM – 4:40 PM | 212 - Feed Your Retina: Nutrition and Retinal Health  
A. Paul Chous, MA, OD, FAAO  
Feed your mind with this course, which will delve into the role nutrition plays in retinal health. This course will touch on several areas where nutrition affects retinal health. Speaker, A. Paul Chous, MA, OD, FAAO, places special emphasis on AMD and diabetes in this session. You’ll delve into practical guidelines, which will make the presented material immediately implementable in practice. (2 hrs) |
| 4:00 PM – 4:50 PM | 215 - Implement the Right Warranty, Achieve Outstanding Customer Service and Drive Sales (PM)  
Jay Binkowitz  
Do you offer a guarantee, a warranty or both? In order to support outstanding service & drive sales, you need both. People make emotional decisions based on warm fuzzy feelings that support sales. For people to feel comfortable about the value they are receiving we must communicate our messages consistently. During this course we will look at several different philosophies to accomplish this along with how to leverage it within our marketing as this all comes full circle to become part of your culture. (1 hr) |
| 4:00 PM – 5:40 PM | 227 - Navigating the Lens Material Maze  
Valerie Manso, BSc, ABOC, FNAO  
You don’t want to miss this one! Navigate the lens material maze and help your patients! Along came resin lenses in the form of CR-39 and polycarbonate. Today we can add 1.54 index, 1.56 index, 1.60 index, 1.67 index and more. Now, throw into the mix a variety of photochromic materials and we have a resultant maze. Every lens material has its uses. In order to best assist the eyewear consumer it is essential that optical professionals understand the features or characteristics of a given lens material and be able to translate these characteristics into customer benefits. (2 hrs) |
| 5:00 PM – 5:50 PM | ICD10S -  
Speaker & Course TBD (1 hr) |
|                  | 228 - Making The $1000 Sale  
ABO Approved — General Knowledge/Experienced  
Bradley Main, FNAO  
Learn how to make the big sale in this course! When you are finished with this session you’ll be able to welcome a potential buyer and ease into the sales process, switch his/her mindset and demonstrate the value of the investment, and then close the sale in a professional and positive manner. (1 hr) |
Paraoptometric Program

**Sunday, November 10, 2013**

<table>
<thead>
<tr>
<th>TIME</th>
<th>PARAOPTOMETRIC SESSIONS</th>
</tr>
</thead>
</table>
| 8:00 AM – 8:50 AM | 308 - Differentiation In Today’s Modern Optical Marketplace  
ABO Approved — General Knowledge/Experienced  
Bradley Main, FNAO  
How do you stand out in a crowd? Speaker Bradley Main, FNAO, says it’s all about improving the patient experience. This course is designed to show various ways in which you can differentiate your eye care practice from the competition to help you achieve higher average revenue per patient, increased penetration of premium products, and generate more professional fees, all while improving patient satisfaction. (1 hr) | 309 - I Speak Your Language  
ABO Approved — General Knowledge/Basic  
Valerie Manso, BSc, ABOC, FNAO  
Do you speak the language of your patients and associates? Are you giving them the correct information, but saying it in the wrong way? Each of us has recognizable and preferred communication styles that we feel most comfortable with. While our individual styles are comfortable, often times it’s not the best for individual situations. This course, based on the nationally acclaimed I-SPEAK program is a powerful workshop that will teach you how to recognize the four basic communication styles, identify your own style and adapt it to improve effective communication with others. (1 hr) |
| 10:00 AM – 11:40 AM | 305 - Getting to Acceptance-Low Vision is Not (Just) About Optics (O)  
Bennett McAllister, OD, FAAO  
Help your low vision patients adjust by taking this course! Speaker Bennett McAllister, OD, FAAO, investigates the psycho-social aspects of vision loss that impact our low vision patients and how doctors can intervene to get their partially-sighted patients using their low vision devices successfully. |  
| 12:00 PM – 12:50 PM | 310 - Reducing Redos  
Bradley Main, FNAO  
Do you have more “re-dos” than you’d like in your practice? In this course, speaker Bradley Main, FNAO, teaches you how reduce that number. Upon completing this course, the attendee should be able to 1) identify a re-do, 2) identify the costs of a re-do, 3) understand the common reasons of re-dos and 4) reduce re-dos through proper measuring techniques and patient visual / lifestyle / occupational needs. (1 hr) |

**Travel & General Information**

**Conference & hotel location**

**Monterey Marriott Hotel**  
350 Calle Principal, Monterey, CA 93940

There is a block of rooms just waiting at the Monterey Marriott for Monterey Symposium attendees at a special, discounted rate for a limited time only.

**Deadline for Special Rate: October 18, 2013. Single/Double Room Rate: $208 per night (11% tax and fees).**

**Wired Internet is included.**

To book your hotel room online visit:  
https://resweb.passkey.com/go/californiaoptometric2013

Phone Reservations: (877) 901-6632. Simply mention that you are attending the COA Monterey Symposium to receive the discounted rate.

**All attendees are responsible for making, changing or canceling their own hotel accommodations.**

**Parking**

There are several parking options near the Monterey Conference Center and the Monterey Marriott.

- Valet parking is available at the Monterey Marriott for $20 per day/overnight, with in and out privileges.
- Self-parking is located approximately two blocks away from the Marriott on the corner of Washington and Franklin Street for $7 per day or $7 per in/out.
- Limited street parking is available, but the enforcement is very strict.

**Airline travel**

The closest airport to the meeting location is the Monterey Peninsula Airport (MRY). You may also elect to fly into the San Jose International Airport (SJC), which is located approximately one hour from Monterey.

**Car rental**

Hertz offers discounted rates for Monterey Symposium attendees. Reservations may be placed online at www.hertz.com or through the Hertz Meeting Sales Desk at (800) 654-2240 and refer to discount number CV#03HJ0022 when making your reservations.

All of this information and more can be found online at www.montereyesymposium.com (rates are subject to change). The website is updated regularly, so bookmark today and visit often!
Simplified administration so you can grow your practice

You’re committed to your patients’ eye care; we are too. That’s why we want to make working with us as easy as possible – giving you more time to focus on your practice and what’s really important: your patients.

Interested in learning more?

Register to win a $100 American Express gift card.
Registration Information

All attendees
Sign up early! Early registration rates apply to registrations postmarked or received online on or before September 29, 2013. Regular registration rates begin September 30, 2013. Pre-registration ends:
• Mailed: Postmarked by October 27, 2013
• Online: Received by October 27, 2013

After these dates, you must register on-site at the Monterey Conference Center beginning November 7, 2013.

Options 1 & 3 will receive 1 complimentary Welcome Reception ticket & Exhibit Hall pass for a guest if you register by September 29, 2013.

Pre-registration
Pre-registration refers to advance registrations received by mail postmarked or online by October 27, 2013. All registrants who are pre-registered may pick up their registration packet at the Monterey Symposium pre-registration counter located in the Monterey Conference Center during registration hours. Any changes in your schedule must be made on-site at the on-site registration desk prior to the beginning of the course.

On-site registration
On-site registration will also be available at the Monterey Symposium. The on-site registration desk is located in the Monterey Conference Center during the following scheduled hours:
Thursday, November 7, 2013 4:00 PM – 6:00 PM
Friday, November 8, 2013 6:30 AM – 5:00 PM
Saturday, November 9, 2013 6:30 AM – 5:00 PM
Sunday, November 10, 2013 7:30 AM – 12:00 PM

Student registration
Student registration is complimentary for active, full-time optometry students if you register by September 29, 2013. After this date the Student Registration fee will be $10. You must register for each course you wish to attend and present your student ID card. Admission to seminars is on a space available basis. Students are not able to register online — they must submit their registration via mail or fax, along with a copy of their student ID card.

Exhibit Hall only registration
Admission to the Exhibit Hall is included with all registration packages. If you are an Exhibit Hall Only attendee, please pre-register by completing the registration form. There will be a $35 entry fee per person (including spouses, family members and children over the age of 12 years). All individuals are required to wear a badge for admittance into the Exhibit Hall. If you register in advance, you can pick up your badge at the Pre-Registration Desk at the Monterey Conference Center. Exhibit Hall Only registration will also be available on-site at the On-Site Registration Desk. No refunds for Exhibit Hall only registrants.

Submitting your registration
There are three convenient ways to register:
Online: www.montereysymposium.com (online registration is for credit card transactions only. Transactions are secure.)
Fax: (916) 469-2896

Mail: California Optometric Association
2415 K Street, Sacramento, CA 95816

Please read the following options carefully. Incomplete forms may delay processing. Make sure you have provided all necessary information printed clearly on the form. Check the courses you wish to take on the front of the registration form. Courses will be filled on a first come, first serve basis.

Online registrants will receive a confirmation e-mail. Mail or fax registrants should expect a mailed confirmation notice within two weeks. If you do not receive a confirmation notice within two weeks after submitting your registration, please contact the California Optometric Association at: (800) 877-5738 or (916) 441-3990.

Registration questions?
Contact the California Optometric Association at: (800) 877-5738 or (916) 441-3990.
